Honorable William K. Reilly
Administrator
Environmental Protection Agency
401 M Street, SW
Washington, D.C. 20460

Dear Mr. Reilly:

It has come to my attention that a fuel additive waiver request has been filed with the Environmental Protection Agency for approval of a performance additive known as HiTEC 3000.

I have been informed that this additive may play a role in the reduction of smog-producing nitrogen oxide and overall tailpipe emissions. It is also my understanding that the additive is compatible with reformulated fuels.

It is of great importance that we examine and evaluate available options to reduce air pollution. I am hopeful that the Environmental Protection Agency will give this fuel additive prompt and thorough review and consideration.

Sincerely,

RAPHAEL MUSTO
State Senator
